

Student Academic Life Committee
September

Present: Doug Ham, Leslie James, Nainita Shifa, Tom Ball, Mairianne Main, Jonathan Bonilla
Jillian Miranda

In the edge, Julia Sheelin proposed an agenda about behavior and intervention related to alcohol on campus. She proposed that the focus be on addressing high-risk behavior. The focus of the DePaul Collaborative is a campus-wide initiative. The agenda of the DePaul and the special national data camp included the following points: focus on the high-risk drinking. The handbook includes a general decrease in alcohol consumption. While there is an increase in binge drinking, the percentage of alcohol consumption has decreased in his area. We also have an increase in peer calls and an education of the BAC on hospital which means that peer is helping in intervention and alcohol-related issues.
